We Care patients receive timely & appropriate medical and/or dental care in the same manner & setting as paying or sponsored patients.

Services Offered:

Primary Care Component: The PCC is an entry point for poverty level, unsponsored potential patients. The PCC has approximately 75 primary care physicians who provide volunteer medical care.

Specialty Care Component: The SCC provides access to specialty medical services such as general surgery, gynecology, and ophthalmology as well as in- and out- patient hospital-based services to poverty level unsponsored patients at the request of a network physician.

Oral Health Component: The PDC provides limited comprehensive dental care including cleanings, fillings & extractions.

Volunteer Mental Health Care Provider Component: The VMHCPC provides time limited mental health services to patients experiencing crises, depression, trauma etc., at the request of a network physician.
