

## Alachua County Safety Net Collaborative

### SNC June Minutes

#### Attendees:

Gay Koehler Sides - FDOH Alachua

Stacy Kirkpatrick- UF Health College of Medicine

Kace Kolegue-We Care

Wendy Resnick - UF Health Shands

Candice King - ACORN Clinic

Sarai Cabrera - AC Social Services

Robin Lewy-Rural Women's Health Partnership

Lisa Chacko - UF CHF/ACORN/CFR

Brendan Shortley-Helping Hands

Daisy Renteria - MOC

Kourtney Oliver- FDOH Alachua

Julie Gibson-UFCOM

James Grigg-MOC

Vicki Piazza-Healthstreet

#### Brendan Shortley-Pharmacy Project @ GRACE

- Harvey Rohlwing and pharmacists found a way to get meds to GRACE
- They have a license and special permission so they can be open only 20 hours not 40. Provide low cost meds to clinics
- Get different medications that we all use that may have normally been very expensive
- Expect an average cost \$2.50 for a 30 day supply
- For those of us that provide free or low cost meds for our pts this will make it more affordable for the clinic
- ACORN will not fully participate in this since they are self-contained however the group will try to get a pallet of free meds
- The clinics would prescribe and send them to pick up at GRACE

## Alachua County Safety Net Collaborative

- A later project is to get unused unopened meds from nursing/assisted living homes. There are a few hoops to jump through but it can be done. Eventually keep those things in this pharmacy.
- Q: Who can use this clinic? At the moment there are contracts between clinics that want to participate.
- Don't want to compete with other pharmacies.

### Candice King-MyHealth Story

- It's a pt portal want to have ability for people to access information (Shared community portal)
- Bad news: each EHR has its own portal that not everyone can see those who participate can see pt information. This would be good for WeCare so they can just look up the pt
- Current participants: ACORN, , Archer Family Medicine, WeCare, Meridian
- Would like to include ACHD, Helping hands, Rahma Mercy, UF COM and UF Shands
- If the pt has MyChart access you can look at MyChart from the pt. You won't see everything (like in a provider view) but it can still have a lot of information.
- Another issue is computer literacy in using this online portal.
- Currently there are students that go to pt bedside and get MyChart on phone.
- We can also expand this to health education groups and they can make referrals through the portal
- Have Kendra come to present and give HIE update and see who should be at that presentation-Kendra will be at July 21 meeting.
- Evaluations: Get more research on the group so that these types of projects are an easier sell.
- Get a perspective of those who already use My Health Story in Marion county
- CTSI does have some pilot funding for new faculty,
- Need to also include the work of other social supports for pts (social workers, CHWs) since some of our pts may not trust doctors and tell them everything. Focus more on pt perspective

### James Grigg

- Dr. Grigg will be going to New York. New director will be chosen soon
- Will be back at the beginning of August
- Went to summit and talked about tobacco and youth Public Goods Project (in New York) does social media campaign with a focus on public health. Look for people who are influencers for certain age, demo etc. put together influencers and it was clothing designers, boxers etc. they were in their 20s and they got the m together and they were asking them how they influence their target population. Went through different demos on ways of using data for the various social medias and you can see who is in your area, what they like etc. and we can use those marketing strategies.

### Wendy Resnick-

Medical legal partnership

## Alachua County Safety Net Collaborative

- Start a medical legal program, UF Health is working on two ways one with Peds and Elder Population. Jacksonville legal aid and Three Rivers already involved.
- Three rivers with MOC they have gotten 178,000 worth of benefits

### Update for other projects

- Home visit newborns (starts in august), childhood trainings initiatives, mental health for parents. All of these projects for a future tax in 2018 that would generate 10 million dollars to continue initiatives like this.

### Gay Koehler-Sides-New App Proposal

- Represented EAC, has been to SNC, Arpan Parekh and interested in creating an app for the group. With that has notifications, directory.
- He wants to come to present but it would be nice to have Dr. Guyer so that we ensure do not duplicate work.
- Oral health coalition update-  
Frank Catalanotto-Trying to get legislation in oral health care, similar idea to ARNPs and PAs but in dentistry. Done already in other states. they are called dental therapists. They would only take the boards in the subjects that they have authority over. They are able to be billed and they would help out in rural areas and in places where dentists don't want to practice  
In the other states where it was approved and had bipartisan approval. They hope to get this done in 3 years.
- Tony from Center for Independent Living is looking for someone to speak on the new health changes with ACA
- By September ACHD will provide dental care

### Wendy Resnick

- Community campaign and UF
- GNV4All one more meeting in June and reconvene in Sept. In phase 2 (action phase) we have agreed that tobacco was a major issue. No fines for smoking in parks for 6 months. Working on the Tobacco 21 issue. June 26th Beholds high school meeting

### Brendan Shortley

- Helping Hands going well, now that Brendan is director need a new Brendan.
- Met with Robin and help people get ID's for immigrants.
- GRACE had its 3rd birthday party had former mayor silent auction etc.
- The amount of homeless people has decreased by 35%

### Kourtney Oliver

- Healthiest weight, gear up for new plan and getting healthier environment on early, hospitals etc.
- FL Healthy babies- great turnout and goes into part of the CHIP. Meetings are quarterly

Kace Kolegue

## Alachua County Safety Net Collaborative

- Staff changes for WeCare. Jessica Petterson does WeCare dental and looking for someone to take over Jessica's job. It will be a smooth transition since she already does eligibility for dental

### Vicki Piazza

- IFAS cooking class. One for everyone and the other for parents. There are also grocery store tours
- Back on track recovery group
- Salsa dance class

### Lisa Chacko

- UF Putting Families First- send them families over and screen family. Will send out flyer for the service.
- Primary care progress is a national group and UF started a chapter. They may reach out to community groups for projects. Perhaps they can help with HIE evaluation or a number of other projects.

### Sarai Cabrera

National county RX prescription cards Can use it for dogs and cats it sends money back into the communities. Please use them so we can get money back into the community.

### Robin Lewy

- Completing Levy county social service guide and there are Marion county guides also (printed only)
- Have seen ICE around SF College. they are here in town. Be Careful if pts do not show up to appointments. Have a text system and interesting in being notified about sightings. How to report if you see border patrol.
- In January contingency planning and have trained over 1000 people to teach people rights. With new executive order many of the rights are gone
- Looking at making a community ID to help people have identification. Sheriff very supportive. Letting put signage into the jail so that undocumented people know their rights. Find a way so that when people show up to clinics we can have a name and address. And this would be for all people to eventually have.
- If ICE comes out to clinic starts asking questions you can start to record them.
- Robin is willing to do a presentation on rights
